

IS CLOSER THAN YOU THINK

So close in on ANSI 5010 and save now on Medisoft® v17.

Don't let today's Medisoft® v17 savings pass you by! With numerous new features and enhancements, Medisoft v17 is designed to prepare your practice for ANSI 5010, while greatly enhancing and increasing the efficiency of scheduling, billing, reporting and revenue management.

If you recall the challenges of implementing NPI, you know it pays to adopt early and allow adequate time for testing prior to the January 2012 ANSI 5010 transition. Starting the process now will reduce the risk of rejected claims and decreased cash flow as ANSI 5010 is adopted.

Make moving to a combined PM/EHR in Medisoft® Clinical part of your upgrade.

Plan for ANSI 5010 and EHR stimulus incentives with Medisoft Clinical, McKesson's combined PM/EHR solution designed specifically for Medisoft users. Medisoft Clinical features Bright Note Technology™ that lets physicians capture an entire patient encounter in a single note using their preferred input method. **Medisoft Clinical v17 is 2011/2012 compliant and ONC-ATCB certified as a complete EHR*.**

ANSI 5010 is coming fast! Contact us today to find out more about the limited-time discount on Medisoft v17 and ask about special pricing on our certified EHR.

Order today and save. Step on it!

Medisoft® v17

In addition to ANSI 5010 compliance, Medisoft® v17 features an array of enhanced capabilities, including:

- BillFlash™ Integration — automatically submit statements to BillFlash directly from Statement Management (no manual upload).
- Revenue Management Enhancements — Claim Click Reduction automates the majority of the clicks currently required to submit a claim.
- Configuration Enhancements — for simplified ERA processing.
- Advantage 10.0 Performance Improvements — faster processing to improve workflow and drive practice productivity.
- And much more!
